**Section II: Compliance with YRA of LIS Minimum Equipment & Safety Recommendations**

PHRF certification is open to any single-hulled, self-righting boat of any age, and almost any description. There is a category of boats, commonly termed day boats that do not meet all of the Section 1.0 General and Section 2.0 Structural Features of the YRA of LIS Minimum Equipment & Safety Recommendations. The most common missing feature is lifelines. To assist race committees in identifying these boats and determining whether or not to accept their entries, we ask that you respond to the following question. The response will be marked on your PHRF certificate.

**Note: Your response to this question will NOT affect your rating.**

**YES NO**

- \_\_\_ \_\_\_ Does the boat at least meet the Minimum Equipment & Safety Recommendations of the YRA of Long Island Sound sections 1.0 General and 2.0 Structural Features?
